## **SMUGGLERS INN** OSMINGTON

**CLIENT: Hall and Woodhouse Ltd**

**Scope of work:**

Excavation and temporary works. Construction of reinforced concrete channel. Incorporate existing pipelines into new channel. Redirect stream flow by continuous pumping during the works. Replacement of five bridge structures, concrete paving and miscellaneous hard landscaping including balustrade installation, lighting patio, retaining wall and extensions. As per Client's specification, all operations were carried out whilst the premises remained open for business. Limited space and restricted access.

## **WATER MEADOW RESTORATION** SOMERLEY ESTATE

**CLIENT: Environment Agency/  
Somerley Estate**

**Scope of work:**

Dredging of redundant water meadow streams. Reconstruction of six brick and stone sluice structures, weirs and two culverts. Supply of oak hatch timbers and sluice gates, including casting and supply of new rack and pinion sluice winding gear to match existing.
